Handbook of Bioenergy Crops Nasir El Bassam 2010 This completely revised second edition includes new information on biomass in relation to climate change, new coverage of vital issues including the "food versus fuel" debate, and essential new information on "second generation" fuels and advances in conversion techniques. The book begins with a guide to biomass accumulation, harvesting, transportation and storage, as well as conversion technologies for biofuels. This is followed by an examination of the environmental impact and economic and social dimensions, including prospects for renewable energy. The book then goes on to cover all the main potential energy crops.

Fighting Nature Peta Tait 2016-08-10 Throughout the 19th century animals were integrated into staged scenarios of confrontation, ranging from lion acts in small cages to large-scale re-enactments of war. Initially presenting a handful of exotic animals, travelling menageries grew to contain multiple species in their thousands. These 19th-

century menageries entrenched beliefs about the human right to exploit nature through war-like practices against other animal species. Animal shows became a stimulus for antisocial behaviour as locals taunted animals, caused fights, and even turned into violent mobs. Human societal problems were difficult to separate from issues of cruelty to animals. Apart from reflecting human capacity for fighting and aggression, and the belief in human dominance over nature, these animal performances also echoed cultural fascination with conflict, war and colonial expansion, as the grand spectacles of imperial power reinforced state authority and enhanced public displays of nationhood and nationalistic evocations of colonial empires. Fighting nature is an insightful analysis of the historical legacy of 19th-century colonialism, war, animal acquisition and transportation. This legacy of entrenched beliefs about the human right to exploit other animal species is yet to be defeated. "Peta Tait brings to the book an impressive scholarly command of the documentary material, from which she draws a range of vivid examples and revealing analyses of human-animal confrontation in popular entertainments ... The book is written with verve and clarity, and will be of interest to a wide readership in performance studies and cultural history." Professor Jane R. Goodall, Western Sydney University Peta Tait FAHA is Professor of Theatre and Drama at La Trobe University and Visiting Professor at the University of Wollongong, and author of *Wild and dangerous performances: animals, emotions, circus* (2012).

Ringleaders of Redemption Kathryn Dickason 2021-01-15 In popular thought, Christianity is often figured as being opposed to dance. Conventional scholarship traces this controversy back to the Middle Ages. Throughout the medieval era, the Latin Church denounced and prohibited dancing in religious and secular realms, often aligning it with demonic intervention, lust, pride, and sacrilege. Historical sources, however, suggest that medieval dance was a complex and ambivalent phenomenon. During the High and Late Middle Ages, Western theologians, liturgists, and mystics not only tolerated dance; they transformed it into a dynamic component of religious thought and practice. This book investigates how dance became a legitimate form of devotion in Christian culture. Sacred dance functioned to gloss scripture, frame spiritual experience, and imagine the afterlife. Invoking numerous manuscript and visual sources (biblical commentaries, sermons, saints' lives, ecclesiastical statutes, mystical treatises, vernacular literature, and iconography), this book highlights how medieval dance helped shape religious identity and social stratification. Moreover, this book shows the political dimension of dance, which worked in the service of Christendom, conversion, and social cohesion. In *Ringleaders of Redemption*, Kathryn Dickason reveals a long tradition of sacred dance in Christianity, one that the professionalization and secularization of Renaissance dance obscured, and one that the Reformation silenced and suppressed.
