Messages, Signs, and
Meanings Marcel Danesi
2004 Messages, Signs, and
Meanings can be used
directly in introductory
courses in semiotics,

communications, media, or
culture studies.

Additionally, it can be used
as a complementary or
supplementary text in
courses dealing with
cognate areas of
investigation (psychology,
mythology, education,
literary studies,
anthropology, linguistics).
The text builds upon what
readers already know
intuitively about signs, and
then leads them to think
critically about the world in
which they live - a world
saturated with images of all
kinds that a basic
knowledge of semiotics can
help filter and deconstruct.
The text also provides
opportunities for readers to
do "hands-on" semiotics
through the exercises and
questions for discussion
that accompany each
chapter. Biographical
sketches of the major
figures in the field are also
included, as is a convenient
glossary of technical terms.
The overall plan of the book
is to illustrate how message-

making and meaning-making can be studied from the specific vantage point of the discipline of semiotics. This third edition also includes updated discussions of information technology throughout, focusing especially on how meanings are now negotiated through such channels as websites, chat rooms, and instant messages.
