I am very strong technically. Why must I learn soft skills? There is a popular saying: The first Impression is the last Impression. A good first impression that creates lifelong relationships is created through effective habits and an ability to say the right thing at the right time to the right person. To manage teams, to have good relationships with your bosses and leaders, to get the job and promotion of your dreams, it is important that we learn how to get soft skills. Formal education and technical certifications are not enough. Our technical experience is insufficient. That's where soft skills are important. Technical skills get you through the door, but soft skills help you progress upwards from floor to floor till you reach the corner office! 2. There are so many soft skills books already. What makes this one different? There are 3 main reasons why you should read this book: a. I have almost 20 years of Corporate, Business and Training experience.

Starting my career as an Assistant manager with the Taj Hotels, I have experience as a founder of 3 start ups and over 15 years as a Life, Business and Executive Coach. The format of this book is entirely based on case studies experienced by me by interacting with thousands of clients and training sessions. b. Neuroscience is a very hot field right now with lots of applications in business. For the first time, I have shared new experiences and ideas on 'How to Promote Yourself' by using applied Neuroscience. I have shared how Neuromarketing helps you to handle difficult people, establish rapport and relationships and become expert people managers. c. This book highlights frequently committed mistakes by others, and suggests ways to avoid these. Life changing frameworks are showcased through case studies and examples. These help you to apply these easy methods immediately in your lives and most importantly become part of your basic nature. 3. What can I expect after reading this book? The book is like a GPS for the readers, who want to explore the quickest ways to reach their desired goals. There is no boring theory, no wasted time! It provides professionals who don't have a background on sales to effectively 'sell' their skills. The reader learns how to 'package' their verbal and non-verbal communication to influence others. Short bite-sized business storytelling has been used to keep the reader interested and energized and motivated to apply these skills in their own life. Building a strong Online Presence can make the crucial difference between cracking that interview, influencing unsure clients positively and making the best impression on key stakeholders. This book imparts easy hacks to becoming an online champion. 3. Any other tips for getting the maximum benefit from this book? I will encourage the reader to read a few pages at a time, then try to apply the solutions and come back and fine-tune their approach by reading a few more pages. Read this book over the course of 6-8 weeks for optimal results. To develop these skills, the reader should read about a chapter and guidelines on how to exhibit new behaviour without feeling shy or conscious. Once the reader begins to exhibit appropriate behaviour in all situations: personal and professional then sustained behavior becomes a

habit. This then becomes part of the reader's basic nature. WHAT YOU WILL LEARN The book aims to provide the reader with a practical understanding of corporate and business life. It has been written by an experienced coach and industry professional with a real-world corporate perspective. WHO THIS BOOK IS FOR The book imparts proven coaching techniques and takes the reader on a journey towards exceptional leadership and management. Book helps the reader to apply it immediately in their lives and keep for life. TABLE OF CONTENTS 1. Soft Skills: An Overview 2. Emotional Intelligence 3. Self-Image Management 4.
