## **THE DECISION MAKING PROCESS - National Forum**

Thus, we see that decision making is a logical sequence of activities. That is, before alternatives are generated, the problem must be identified, and so on. Furthermore, decision making is an iterative activity. As shown in Figure 1, decision making is a recurring event, and school administrators can learn from past decisions. The paragraphs

1973, a blindfolded chimpanzee throwing darts at the Wall Street Journal could select a portfolio that would do as well as the experts. Of course, the advice was not literally to throw darts but instead to

throw a towel over the stock pages - that is, to buy a broad-based index fund that bought and held all the stocks in the market and that charged very low expenses. By the start ...
