scrambled to deal with (and if possible evade) shifting censorship laws and tax regulations, in order to cater to a reading public's appetite for books of all kinds, from the famous Encyclopédie, repository of reason and knowledge, to scandal-mongering libel and pornography. Historian and librarian Robert Darnton uses his exclusive access to a trove of documents-letters and documents from authors, publishers, printers, paper millers, type foundry, ink manufacturers, smugglers, wagon drivers, warehousemen, and accountants-involving a publishing house in the Swiss town of Neuchatel to bring this world to life. Like other places on the periphery of France, Switzerland was a hotbed of piracy, carefully monitoring the demand for certain kinds of books and finding ways of fulfilling it. Focusing in particular on the diary of Jean-François Favarger, a traveling sales rep for a Swiss firm whose 1778 voyage, on horseback and on foot, around France to visit

bookstores and renew accounts forms the spine of this story, Darnton reveals not only how the industry worked and which titles were in greatest demand, but the human scale of its operations. A Literary Tour de France is literally that. Darnton captures the hustle, picaresque comedy, and occasional risk of Favarger's travels in the service of books, and in the process offers an engaging, immersive, and unforgettable narrative of book culture at a critical moment in France's history.

Teaching Culture in Introductory Foreign Language Textbooks

Carol A. Chapelle 2016-07-30 This book demonstrates how foreign language textbook analysis can inform future materials development to improve foreign language teaching. Through chronological analysis of French textbooks in the United States, this book explores the representations of Canada and Quebec in French beginner textbooks produced from 1960 to 2010. Chapelle couples a large collection of 65 textbooks with a social-semiotic qualitative analysis of the genres, language and images

that communicate Quebec's cultural narrative to learners. Findings about the amount and type of content are presented by decade to track the trends in foreign language teaching and changes in Quebec's representation. Particular attention is given to how language politics is presented to students through text and images. This book will be of interest to scholars of Canadian Studies, Quebec Studies and Second Language Acquisition, as well as foreign language materials developers.

collection of four original short stories brings the Francophone world to life through the experiences of students and young professionals in France, Guadeloupe, Belgium, and Canada. Accompanied by activities, the stories are written specifically for high-beginner and intermediate learners of French. In each story the characters are portrayed in authentic, everyday situations and cultural settings that will pique student interest and offer a glimpse of daily life in different French-speaking countries, encouraging students to read for pleasure in French and thereby further develop their language skills.

The New Bibliopolis Willa Z.

Silverman 2008-08-15 The late-nineteenth century in Europe was a period of profound political, social, and technological change. One result of these changes was the rise in France of an upper-bourgeois bohemian class. Many of its members stimulated interest in unique forms of artistic expression such as illustrated books. On account of their influence, an atmosphere of intense bibliophilic activity came to define French culture at the turn of the century. The New Bibliopolis explores the role of amateurs in promoting the book arts in France during this period. Drawing on extensive original research, Willa Z. Silverman looks at the ways in which book collectors supported print culture. She shows how, through the admiration demonstrated by collectors for this medium, print came to be a crucial part of popular conceptions of aesthetics. As collectors, publishers, authors, designers, and directors of bibliophile societies, reviews, Donostia@mail.notepadcalculator.com

presses, these book lovers became passionate and prolific interlocutors of the printed word in a uniquely artistic epoch. Silverman analyzes subjects as diverse as the relationship between book collecting and aesthetic and cultural currents such as Symbolism; the gendered nature of book collecting; the increased collaboration between authors and illustrators; and the marketing of fine books at international exhibits. The New Bibliopolis is an important contribution to the study of book history, French sociocultural history, and fine and decorative arts.

French Literature Alison Finch 2010-07-19 "The depth and range of this book are astonishing, as it describes the cultural conditions out of which French literature has emerged as a vital component of Western civilization from the Middle Ages to the present day. Informative and immensely readable, it makes a compelling

and humane case for the continued study of literature in a changing world." --Colin Davis, Royal Holloway, University of London "Written with great panache, this book locates French literature in the wider culture of the Western world. Finch shows how, from Marie de France to MC Solar, literature in France has always intertwined with politics, history, geography, money, sex, language, gender, class and race. Women writers and the new Francophone literatures receive welcome recognition. A remarkable achievement." --Michael Sheringham, Oxford University "Alison Finch's superbly written book brings the cultural dimension of French literature fully into focus. While revealing how the agenda of literary study has changed, she demonstrates that we can engage with the great canonical texts of French literature in new and exciting ways. The book is to be commended for its clarity, its shrewd analyses and its sheer readability." --Tim Dowling

Bristol University This book is the first to offer a cultural history of French literature from its very beginnings, analysing the relationship between French literature and France's evolving power structures from the Middle Ages through to the present day. It shows the political connections between the elite literature of France and other aspects of its culture, from racism, misogyny, tolerance and liberal reform to song, street performance, advertising and cinema. The nation's literature contributed to these and was shaped by them. The book highlights the continuities and the unique fault-lines in the society that, over a millennium, has produced 'French culture'. It looks at France's early and continuing struggle for a national identity through both its language and its literature, and it shows that this struggle co-exists with openness to other cultures and a bawdy or subtle rebelliousness against the Church and other forms of authority. En route it takes in cuisine, gardens and the French

tradition in mathematics. The survey provides an accessible approach to key issues in the history of French culture as well as a wide context for specialists.

Words in a French Life Kristin Espinasse 2007-05 Shares the author's experience as an American French major who relocated to France, married, and raised a family, in an account that shares numerous everyday French words and phrases that are unlikely to be taught in classrooms.

The French Book and the European Book World

Andrew Pettegree 2007-09-30 A series of linked studies of European print culture of the sixteenth century, focusing particularly on France and the regional, provincial experience of print.

Vis-A-vis Evelyne Amon 2018-06-12 Vis-à-vis engages students with its unique integration of contemporary culture and communicative building blocks, providing tools to build a solid foundation in introductory French. Building communicative competence with Vis-à-vis One of the major challenges of the introductory language course is to give each

student ample exposure to the language and sufficient opportunity to practice speaking, both in and out of the classroom. To parallel print versions of the text and Workbook/Laboratory Manual, we offer the same content on the Connect platform, where students have full access to the eBook, online

Workbook/Laboratory Manual activities, LearnSmart, and all accompanying audio and video resources. In Vis-à-vis, the following resources work together to promote communicative competence: Interactive vocabulary presentations (Paroles) include audio recordings, allowing students to listen, record, and practice new vocabulary outside of class. Interactive activities for vocabulary and grammar, many of which are auto-graded, give students the opportunity to complete their assignments and come to class better prepared to participate in paired and group activities. Prononcez bien! activities include a recording feature and provide students

opportunities for discrete-word and contextualized practice that help students develop confidence in their speaking abilities. Recordings of lively mini-dialogues featuring the blog characters give students a spirited introduction to the new grammatical structure in context. Seventeen Grammaire interactive tutorials, each with a brief practice quiz, focus on structures that students typically struggle with, such as passé composé vs. imparfait. LearnSmart modules for vocabulary and grammar are available specifically for Vis-à-vis. This powerful adaptive tool helps students pinpoint their weaknesses and gives them an individualized study program based on their results. Audio prompts for vocabulary and grammar help students strengthen both their listening and writing skills. With these powerful tools, students have many opportunities to build their communicative skills, and instructors save valuable class time for interactive practice. Building cultural competence with Vis-à-vis The program's

meaningful and extensive exploration of the rich culture of France and the Francophone world is fully supported throughout the program. Each four-chapter segment of Vis-à-vis focuses on a new French or Francophone character and region. The personal online journal entries in Le blog de..., the related Reportage, and the Bienvenue... readings that precede Chapter 1 and follow Chapters 4, 8, 12, and 16, expose students to contemporary language and the vast diversity of life and culture in France, Canada, Tunisia, and beyond. Le videoblog de... and the stunning Bienvenue video segments feature the bloggers and give students a window into the sights and sounds of eight different French-speaking regions/countries including France, Martinique, and Tahiti. Each video is accompanied by comprehension and cross-cultural comparison activities that encourage students to make connections between their culture and those of the French-speaking world. A brand-new feature has been

added below the Reportage, entitled Le Micro-trottoir. Le micro-trottoir provides students a chance to see everyday language in action through recorded "man-on-the-street" interviews featuring a diverse group of people. The interview questions are provided in the text and students will hear the interviewees respond to these questions in the video.

Instructors can use these questions as a pre-viewing activity or have students ask and answer them after they watch the video. Additional activities based on the interviews are available in Connect. In the 7th edition, we also added a new feature entitled Sondages to all even-numbered chapters. Sondages are culture-based activities in which students look at statistics about French life and compare to their own lives. The results could serve as a basis for an end-of-semester cross-cultural comparison project.

The French Book Henri-Jean Martin 1996-07-26 The book as the subject of a distinct historical discipline dates from the landmark publication of L'Apparition du livre by Lucien Febvre and Henri-Jean Martin

1958. In this further contribution to his pathbreaking work with Febvre, eminent French historian Henri-Jean Martin explores the role of the book and book industry in early modern France. Martin begins with a sweeping look at the revolutionary role played by the new technology of printing in Europe of the Renaissance and Reformation. Shifting the focus to France, he then examines the political implications of publishing in the reign of Francis I, including such topics as the founding of royal and university libraries, the role of church-state relations, Richelieu's cultural program, and censorship. In revealing case studies of Rouen and Grenoble, Martin pinpoints precisely which books were sold and to which social groups, and explains why the initially successful printers of Rouen were eventually forced out of business by the Parisian courts. Martin also casts a discerning eye on early graphic design—from the first illustrated "coffee table" books purchased by the newly rich to

the invention of the paragraph to facilitate reading. And he shows how attempts by the French government to suppress and control publication were eventually thwarted by free market forces from Amsterdam and Neufchatel. This is a book that will be of interest to those who study the history of the book, intellectual history of early modern Europe, and the relation between politics and ideas.

The Bridgetower Sonata

Emmanuel Dongala 2021-02 In this vividly imagined historical novel, acclaimed Congolese author Emmanuel Dongala has focused his laser-sharp wit on the life and times of George Bridgetower, a young violin prodigy, who, at the age of nine, took the courtly world of 18th century Europe by storm-- and surprise, given the youth's unusual origins: for George was of mixed-race parentage, known in the parlance of the day as a mulatto. Though his opportunistic father and de facto manager was Baronde de

and dark-skinned, while his mother was a Polish handmaiden in the Viennese court, this young virtuoso, proclaimed as the "Black Mozart," was welcomed into the high society of Tout-Paris on the eve of the French Revolution. After he and his opportunistic father fled to England, George became a court favorite of the Prince of Wales where his fame spread widely across Europe. He eventually arrived in Vienna and became close friends with Ludwig Van Beethoven, but fell out of grace due to an errant remark about the composer's love interest. Brimming with lively detail and dialogue and with cameo appearances from historical figures such as Thomas Jefferson, Joseph Haydn, William Herschel, and others.
